COLLECTIVE CHANTING

WORLD SACRED CHANTING CIRCLE

A participatory circle to sing together and connect through our voices

1½–2 HOURS

We invite participants to **join their voices** on a journey through sacred chants from around the world. Accompanied by Indian harmonium, guitar and drum, the vibrations rise in a
joyful celebration of life.

Inspired by spiritual traditions that carry universal messages of love and awareness, our repertoire brings together Indian kirtans, Native American medicine songs, Buddhist mantras, Christian-inspired chants and original compositions.

Every voice finds its place in the circle. Everyone can take part in their own way, with **no previous singing experience**. Our intention is to open the voice and the heart, experience the power of singing in unison and celebrate our connection to life together.

VOICE & MANTRAS

WORKSHOP • SACRED VOICE: SHIVA SHAKTI MANTRAS

A vocal and vibrational journey into the sacred feminine and masculine

1½–2 HOURS

Photo: Emmanuel Pampuri

This workshop invites participants to discover the **meditative, vibrational and sacred dimension** of Indian chanting.

We begin with a **traditional vocal warm-up accompanied by harmonium.** Through sung vowels and syllables, the vibrations awaken the body's resonances and gradually open the voice, creating a **meditative atmosphere of relaxation, grounding and deep connection with oneself**.

We then explore **two complementary sacred mantras**, resonating with **the divine feminine principle (Shakti)**—creative energy and the power of transformation—and **the divine masculine principle (Shiva)**—pure consciousness, presence and stability.

Through **collective chanting in the form of kirtan**, our voices come together in unison, creating a **powerful vibrational energy** in which the feminine and masculine polarities resonate with one another. A moment of **connection, harmony and celebration of life**.

Format Guided, participatory workshop

Practices Breathing, vocal warm-ups, Indian vocal exercises and mantras

Instruments Voices and Indian harmonium

DJ SETS & ECSTATIC DANCE

ECSTATIC DANCE

A musical journey to explore movement freely

1½–2 HOURS

We create a **progressive musical journey** that invites everyone into their own dance. Electronic sounds meet music from around the world, mantras and medicine songs, with an electro-mystic and shamanic feel.

The session begins with a welcome and an introduction to the **Ecstatic Dance guidelines**. Freedom of movement, **dancing without conversation** and respect for each person's space support personal exploration, with attention to **consent** in all interactions.

The musical selection moves through different intensities, from inward moments to joyful celebration, before guiding a gentle return to stillness. Everyone is invited to follow their own sensations and rhythm, with no choreography to learn.

Format DJ set within an Ecstatic Dance session

DANCE CEREMONIES

UNIVERSAL HEART DANCE

An electro-shamanic dance ritual set to our original music

1¾–2 HOURS

Universal Heart Dance is a sacred trance-dance ceremony supported by **our original music**. **Guidance accompanies participants throughout the journey**, connecting with the elements and the different realms of the living world.

The ceremony begins with **energetic preparation** through breathing, grounding and body activations. This opening allows us to enter the experience together and set a shared intention.

The dance journey unfolds as a passage through different worlds, from the earth to the cosmos. Music and guidance invite the body to express itself, explore sensations and experience dance as a space of presence and celebration.

A gentle closing supports the **return to stillness and integration of the experience**. Our intention is to reconnect through movement with the Universal Heart and with what each person wishes to embody in their life.

Music Original music composed by World AE
